Ten Times Voted Best Blues Band in Atlanta

This isn't sit in the corner and cry music. This is feel good music. This is celebration music. This is get up and dance music!

The Breeze Kings formed in 1997 out of a mutual love for 50's era Chicago blues. The spark was there and word spread fast. Today, the band performs over 200 shows per year all over the eastern USA and has completed four European tours. Featuring complex guitar parts, explosive harmonica, soulful vocals and super groovy rhythms, their exciting and authentic blend of Chicago, Delta, and other regional blues styles catches wide attention. Show after show, their charismatic energy wins over new fans while their unwavering dedication to time honored traditions earns the respect and admiration of blues purists. They have opened for, and played with, some of the biggest names in blues, performed live on television and radio, and their music is enjoyed worldwide on blues radio and online via iTunes, Pandora, Youtube and Spotify. It's no wonder the Breeze Kings have won Creative Loafing's annual Best Blues Band in Atlanta award TEN TIMES and were among the top 10 finalists at the 2005 IBC competition in Memphis TN.

The Breeze Kings have released four CD's on Atlanta's Veritone Records label. With each CD comes a blend of classic blues covers and creative original songs showcasing the band's roots and its talent. Critics and audiences have received all four CD's very well with glowing reviews and radio play from all over the world.

In addition to numerous club and festival performances, The Breeze Kings are in high demand for private occasions. The band's distinct sound and absolute professionalism are exactly what clients want for a unique and memorable party, wedding or corporate event.

The Breeze Kings have something special and it makes them one of Atlanta's, and the South's, most popular and sought after blues bands.

"The Breeze Kings have conquered Atlanta with a jumping mix of styles that ranges from sweet home Chicago electric blues to sizzling Texas blues to raw-and-ready Mississippi Delta and Piedmont blues. The music swings, shuffles and shakes a mean tailfeather."
